Dear Sir/Madam,

I am writing to request a correction in the author details of our submitted conference paper under the track
ICISESSC2026.

****Paper Details:******* **Paper ID:** 1245***** **Title:** Robust Drone Identification via RF Spectrogram Analysis using RobustSpecNet***

It has come to our attention that there is an error in one of the author names. The name has been mistakenly entered as
"Arti Jain", whereas the correct name should be **"Aarti Jain"**.

Additionally, kindly add the corresponding email address in all authors mail address: arti.jain@nsut.ac.in.

We sincerely apologize for any inconvenience caused and request you to kindly make the necessary correction in your records at the earliest.

Please let us know if any further information or formal verification is required from our side.

Thank you for your time and support.

Warm regards,
Simran
